**Copper Smelting
& Refining
Asset Service**

Independent *expert* intelligence

www.crugroup.com/en/solutions/copper-smelting-refining-service/

Why CRU?

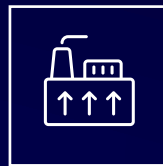

Volatile prices, regulatory requirements, and energy efficiency are at the forefront of most businesses today – and copper smelters and refiners are no exception – but we are here to bring the visibility you need to succeed.

Our data-driven insights boost operational efficiency, maximise profitability, and ensure compliance, helping you turn challenges into opportunities.

Asset Information

- Location, technology, operating status, integration, operator, ownership, production, costs, etc
- Asset description
- Cost and revenue summary

Modelling

- Cost and revenue curves
- Primary and secondary sourced data
- Scope 1, 2 and selected scope 3 emissions curves

Process Data

- Detailed feed and production numbers
- Cost and process data per module/unit operations
- Modelling based on the technology type for every smelter sector

Strategic Insights: Empowering informed decision-making

■ **Asset Benchmarking**

Our service equips smelters and refiners with the latest data and cutting-edge insights. Join us to seamlessly optimise your operations for maximum efficiency, Benchmark assets to identify areas of improvement that lead to optimised operation and maximum efficiency.

■ **Cost Management**

Dive into granular cost data for copper smelting and refining assets. Track costs, identify cost drivers, and make well-informed decisions to improve profitability.

■ **Sustainability insights**

Elevate your sustainability planning and strategy – track emissions, evaluate environmental impact and champion green practices across your assets. Transform how you see sustainability – from a goal to a realistic venture.

■ **Strategic decision-making**

Unlock the power of our data and ensure strategic planning. Evaluate investments, expansion opportunities and asset acquisitions with confidence.

Unlock Value

Unlock a world of strategic advantages with CRU's Copper Smelting & Refining Asset Service.

- **Comprehensive coverage**

You get access to detailed insights into copper smelting and refining assets worldwide, offering unparalleled coverage in the market.

- **Timely data**

Stay ahead with the latest data updates, ensuring you have the latest information to drive your decisions.

- **Customisation**

You can tailor our service to your unique needs. Choose specific assets, regions, or parameters to focus on what matters most to your business.

- **Enhanced accessibility and seamless integration via CRU DataLab and API**

Seamlessly integrate CRU's data into your existing systems, enhancing workflow efficiency.
